## The Reflex Zone Biofeedback

The word "biofeedback" is a description for biological control mechanisms. It is composed from the Greek word "bio" = life, life processes and the English word "feedback" = reaction.

Reflex Zones or "somatotopies" (from the Greek words "soma" = body; and "topos" = place, position, location) are areas on the skin surface, which have connections to the internal organs and body structures.

The interpretation of the energetic condition of a reflex zone serves as a method of diagnosis and treatment for regulating the internal organs and the psyche.

## The Biopulsar-Reflexograph®

The Biopulsar biofeedback system is a modern, multifunctional analysis device for the PC, based on the biofeedback of the hand reflex zones. Within a few minutes a complete bioenergetical analysis of 43 organ zones is generated.

Through a Biopulsar's reflex zone biofeedback scan profound knowledge can be obtained about the bioenergetic field (aura), the life force condition of individual organ zones and organ networks, potentials, causes of field disturbances and paraesthesia.

## The Functionality

The Biopulsar-Reflexograph® Biofeedback system is a super-sensitive, CE-labelled bio-medical measuring device, developed in accordance with the basic safety requirements of the European Guidelines. It is based on the latest computer technology combined with the basic principles of ancient healing sciences.

- The concept of the Biopulsar-Reflexograph® System is based on Eastern and Western holistic energy and therapy sciences.
- The presentation of the energetic system of the human body is effected through different parameters, such as the dynamical biofeedback of the organ zones in real-time, the aura colours of the organ zones, the activity of the chakras and much more.
- The Biopulsar-Reflexograph® hand sensor is a refined receiver for high-resolution biomedical signals, which are taken from the reflex zones of the palm.
- Every 500 milliseconds (real-time) biodata is taken from at least 43 organ zones and transferred to the PC. There the data is processed and presented with the help of the software in various graphical displays.
- There is no exposure of the body to harmful or disturbing impulses during measurement. In comparison to many other diagnosis systems, that often expose the body to harmful radiation, only low frequency and absolutely harmless impulses are used for measuring the skin resistance. Thus, the system can also be applied with electro-sensitive people, people with pacemakers or during pregnancy.
- In general, a complex bioenergetic measurement of the whole body takes only a few minutes. Therefore, the client even does not have to disrobe. You receive the energetic syndromes of 43 organ reflex zones in a short period of time and in a clearly arranged form.
- From the reflex zone biofeedback and the dynamic aura of the whole body the therapist can read information regarding the vitality and the physical as well as the psychological state of the client.
- In most cases, the results of the biofeedback measurement correspond with the subjective feelings of the client.

## The Aura

### Holistic energy picture of a human

Often organ reactions are very sensitive to conscious or unconscious thoughts, feelings and emotional information. The interaction between body and psyche is emanated through the aura and the chakras in dynamic painted colour frequencies.

This aura can be perceived by clairvoyant people. Through a Biopulsar® aura picture and the organ aura table the therapist can recognize very quickly the physical and psychical constitution, subtle energy relations, pain syndromes, tension, blockages and potentials.

The patient/client sees him/herself perceived by the therapist in a holistic manner, physically as well as intellectually and spiritually.

The aura diagnosis is an important basis for a holistic life counselling.

## Tolerance Tests of Products

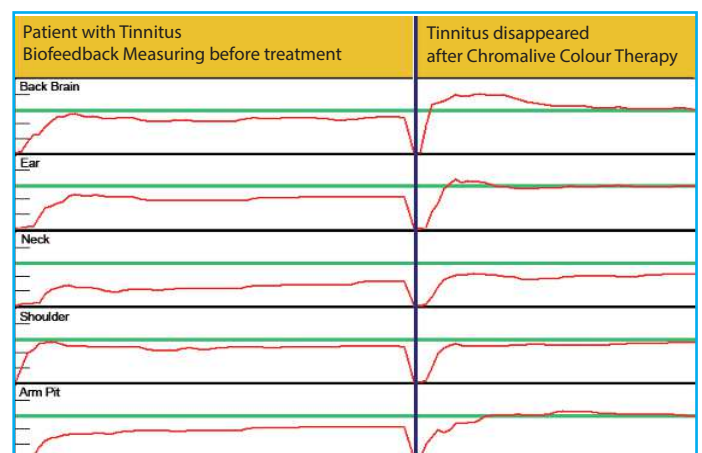

The Biopulsar-Reflexograph® system is a sensitive measuring device that quickly and harmlessly tests the reaction of therapeutic products like Bach flower remedies, Schüssler Salts, homeopathic medicines, nutritional supplements, healing gemstones as well as food, thoughts, etc.

With the reflex zone biofeedback measuring an individual's energetic response to a remedy, product or food can be tested in detail.

## Effectiveness Control

Through a control measuring, the effectiveness of a product or treatment can be instantly seen in detail, satisfying any doubts.

## System requirement

PC/Notebook, with the operating system Window™ 10/11, CD drive (external), printer, digital camera (optional).

## What Does the Biopulsar-Reflexograph® Offer?

- Individual combination of hardware and software.
- The screen presentations are easy to read and the windows can be arranged in different formats.
- Dynamical biofeedback analysis of 43 organ reflex zones of the hand support a clear and detailed syndrome diagnosis.
- Variable adjustment of measuring time – e. g. measurements of skin resistance are made every 500 milliseconds (real-time).
- Vitality graph for a differentiated analysis of stress potentials in the area of chronic or acute processes.
- Green harmony line for the display of aberrance of an organ zone from the harmonic energetic condition.
- Lengthy and comparative measuring for therapy control, remedy and product testing.
- Dynamical presentation of the whole body aura for the analysis of the psycho-energetic constitution of a person.
- Reference list of individual organ zones with the corresponding aura colours.
- Dynamical chakra presentation with mathematical evaluation and text analysis according to Ayurveda.
- Database function: Every aura colour of an organ zone and chakra function can be allocated to individual texts and pictures. Therefore the user can create his own database with an individualized repertory.
- Recording and replay function for therapeutic sessions.
- Connection to a digital camera for the creation of aura and chakra pictures.
- Extensive assistant softwares available:
  - Chromalive® Colour Light Therapy
  - Great Holistic Therapy Assistant
  - Homeopathy Assistant
  - Aurascope (text interpretation approx. 20 pages)
  - PhysioFit - Sport & Fitness Software
  - Aroma-Spa

- No need to disrobe
- No exposure to radiation or toxins
- No practitioner interference
- No network connection
